

Jeff Bloomer

Adobe Analytics
Champion 2021 to 2026

Middletown, OH 45042 ♦ (513) 204-9748 ♦ jeffbloomer1993@gmail.com

EXECUTIVE SUMMARY

Executive Digital Analytics leader with deep expertise in data governance, Adobe Analytics and Customer Journey Analytics, reporting, marketing technology, and campaign tracking. My unique approach to servant leadership and reputation for advocacy have multiple facets.

1. I dedicate my time and energy assisting organizations aligning people, processes, and platforms to deliver practical, business-driven results across web sites, mobile applications, and enterprise teams.
2. Via team development and cross-functional collaboration, I work to perpetually build trust, improve execution, and create scalable performance.
3. As one of only 40 global Adobe Analytics Champions, I bring technical credibility, a professional network, and a brand of advocacy that supports insight, adoption, leadership, partnership, and community available to very few professionals in today's competitive landscape.

CORE COMPETENCIES/SKILLS

STRATEGIC PLANNING, CROSS-TEAM COLLABORATION, TEAM MANAGEMENT, ADOBE ANALYTICS, SERVANT LEADERSHIP, REPORTING & INSIGHTS, STAKEHOLDER MANAGEMENT, TEAM DEVELOPMENT, CONTINUOUS IMPROVEMENT, MARKETING TECHNOLOGY, CAMPAIGN TRACKING, AI STRATEGY, BUSINESS ANALYSIS, GRAPHIC DESIGN, PROGRAMMING (JAVA, VB FOR APPS), PROJECT MANAGEMENT, VISUAL COMMUNICATIONS

PROFESSIONAL EXPERIENCE

CARDINAL HEALTH – Dublin, Ohio (2025 – 2026)

Manager, Digital Analytics | Jun 2025 to May 2026

- Hired and trained three new contractors – specifically related to project parameters – while focusing on improving the overall team's competencies, skills (including User Acceptance Testing), resulting in their ability to work almost 95% of the time independently without requiring leadership's intervention.
- Starting from less than a bare-bones setup, inside 90 days I trained the team to create a user-friendly filing system within Confluence for the team to document and find the processes they needed at a moment's notice.
- In less than 60 days, trained and introduced the team to a custom, realistic, and practical productivity planning and tracking tool using Jira, which helped the team to move from reactive "busy" work to create transparency of their project workload to the entire organization.
- Introduced "basic industry standards" for reporting and formatting, campaign tracking, along with some elementary Data Storytelling for Adobe Analytics, which is training I began providing inside Kroger as early as early 2015 to developers and fellow analysts.
- Within 90 days of hiring, successfully led the Vantus™ Mobile App team to implement and execute AEP Assurance (formerly Project Griffon), giving them stronger debugging and validation capabilities.

THE KROGER CO. – Cincinnati, Ohio (2013 – 2025)

Manager, Digital Analytics at Kroger Personal Finance | Jan 2019 to Mar 2025

Led the executive development of Digital Analytics for Kroger Personal Finance (KPF) across web and mobile apps, rebuilding legacy dashboards with Adobe Analytics Workspace for improved insights.

- Managed KPF's Adobe Analytics implementation via third-party vendors and internal teams, ensuring alignment with business goals and improved execution of digital analytics reporting by 75%.
- Enforced standards for internal and external campaign tracking using Claravine, improving conversion tracking for high-profile eSpots and increased Marketing's accountability by 80%.
- Partnered with stakeholders and third-party vendors to regularly define success metrics (Key Performance Indicators and Conversions) for key web and mobile features.

Jeff Bloomer

Adobe Analytics
Champion 2021 to 2026

Middletown, OH 45042 ♦ (513) 204-9748 ♦ jeffbloomer1993@gmail.com

- Created documentation, measurement plans, and project tracking in Confluence, ensuring transparency and knowledge sharing across teams.
- Integrated analytics into agile development cycles, maintained reporting standards, performed QA, and provided team training across multiple groups at Kroger.

Sr Digital Analytics Implementation Specialist | Sep 2014 to Dec 2018

Managed the Adobe Analytics implementation across web and mobile, ensuring seamless integration and data accuracy.

- Collaborated with Product Managers, Scrum Masters, and Business Analysts to define tagging requirements and align reporting strategies.
- Participated in Program Increment (PI), and later Objective and Key Results (OKR) planning to align Digital Analytics objectives with software development and business priorities.
- Defined and implemented core data standards (defining data requirements, creating data elements, data dictionary, etc.) that formed the foundation of Kroger's current eCommerce digital analytics framework.
- Pioneered and championed both comprehensive documentation and project tracking within Jira and Confluence, which resulted in at 90 to 95% increase in both transparency and efficiency for software development, support, and customer care.

Manager, Web & Digital Analytics | Dec 2013 to Sep 2014

Partnered with leadership to build and support a high-performing Digital Analytics team, strengthening accountability, cross-functional collaboration, and continuous improvement across Digital.

- Standardized reporting workflows, improving consistency and increasing efficiency by approximately 75%.
- Worked with the Digital Analytics team to build enterprise dashboards to improve visibility into digital performance.
- Established a recurring reporting cadence with leadership to deliver decision-ready insights.
- Aligned data and analytics output and results with strategic priorities via cross-functional partnerships, including Digital Products, Big Data Services, and Engineering.
- Consolidated varying (and quite challenging) disparate data sources, including Digital and Business analytics, into a source-of-truth dashboard used in weekly Digital meetings.

EDUCATION

UNIVERSITY OF PHOENIX – Phoenix, AZ

B.S. - Information Technology/Multimedia & Visual Communications

SINCLAIR COMMUNITY COLLEGE – Dayton, OH

Computer Information Systems – Software Development

HONORS

ADOBE ANALYTICS CHAMPIONS | FEB 2021 to OCT 2026

- Elected Vice President of Leadership Committee: 2022 to 2023 and 2023 to 2024
- Elected President of Leadership Committee: SEP 2024 to 2025

PORTFOLIO – JEFF BLOOMER

VIDEOS

1. **Adobe Analytics June 2025 Deep Dive**

2. **Campaign Tracking Standards Series:**

<https://youtube.com/playlist?list=PLmyLZL5BUf8ECQzyVwwMnwqzt75CP5I57&si=9WoVACMI8y2jWEcb>

This multi-month, inter-continental series explores the ins-and-outs of campaign tracking.

3. **Mobile Dashboards:**

<https://youtu.be/G88Pwqzy3EA?si=0kDmJl3x74NHKEqs>

The Adobe Analytics Dashboards App was designed with the executive in mind, delivering easy access to their Adobe Analytics and Customer Journey Analytics data and providing immediate insights. But wait, there's more! The accessibility and intuitive design that makes it such a successful executive application has also made it a powerful tool for democratizing data to every corner of the organization. Since its launch in 2020, organizations have been using the award-winning app for a stunning variety of use cases, empowering new business users with the data they need in the moments that matter. Learn how to:

- Tailor dashboards to the executive persona
- Use dashboards to help you empower more stakeholders with less
- Create dashboards that make an impact with the latest features (i.e, data stories) and go beyond what you have been doing with traditional Workspaces!

4. **Adobe Summit 2024 - Find Your 'Happily Ever After' in Data Storytelling:**

https://youtu.be/_lxklDRgwI?si=1mDfoTuDL_JhFkPg&t=1258
